NAPLES, April 11—2:15 p. m.—The loss to property by the volcanic outbreak is estimated at \$20,000,000 and it is announced that at least 50,000 persons have been rendered homeless.

## FIND BODY; SKULL IS CRACKED OPEN

LOUIS MAY,  
WHO IS  
MISSING

IS IT ACCIDENT,  
A SUICIDE OR  
A CASE OF  
MURDER?

An unknown white man about sixty years of age was found dead among the rocks at the foot of B street this morning by Manuel Demello, who resides at 242 Eddy street.

There is no means of telling whether death was the result of accident, suicide or murder.

The head of the deceased was literally cracked open, presumably by contact with one of the trains passing at that point.

There was nothing on the person of the deceased to give any clew as to his identity. He was well dressed, but wore a blue sweater, which would indicate possibly that he was a racehorse trainer or that he followed some similar occupation.

### UNRECOGNIZABLE.

Owing to the fact that the face was crushed until it is hardly recognizable as that of a man it is impossible to give a good description of the deceased. He was a man probably between fifty-five and sixty years of age.

He had a gray mustache, which might be described as scraggly. His hair was gray and he was bald for a considerable distance from the forehead.

### NEAR A SEWER.

The body was found where the sewer empties at the foot of B street. From the position in which it was found it would seem that one of the trains that passed during the night buried the deceased a considerable

Considerable mystery surrounds the strange disappearance of Louis May, who for several months has been employed as a collector and notholder by the Oakland Journal, the German publication. May, who is a native of Bavaria, 32 years old, has not been seen by his employer since last Wednesday and the police have been appealed to in an effort to locate the man.

Owing to the time of his disappearance, which was on the same day as the unidentified young man was killed in Berkeley by a street car, after he had taken poison in an attempt to end his life, it was at first thought by friends of May that he was the victim of the Berkeley tragedy.

When Mrs. W. Guld of 836 Jefferson street, with whom May roomed, called at the Burgess home in Berkeley last Saturday she apparently identified the body of the young suitor as her tenant.

She however, accomplished this identification by looking at the bloodstained clothing which the young victim had worn at the time of his untimely death. At the time of her visit to Berkeley the woman refused to give her name to the coroner and her identity did not become known until Albert Currin, proprietor of the Oakland Journal, who had been May's friend and benefactor, called at the morgue to verify the apparent identification made by the woman.

### NOT IDENTIFIED.

Upon looking at the corpse, however, Mr. Currin without hesitation declared that it was not his former employee, May. While the victim was similar to that worn by the missing boy, the scratches of the suicide did not bear any resemblance to May, who is a much older boy.

The circumstances of May's coming to Oakland are somewhat peculiar. Last February Mr. Currin received a pathetic appeal from May, who was an inmate of Agnes asylum for the insane. He said that he was a countryman or the publisher and that he was mentally sound and wished Mr. Currin to use his influence to get him released.

The latter went to the State Institution after the receipt of the strange letter. After talking with the man, May, he became convinced that the man was sane. Dr. Osborn, superintendent of the hospital, allowed the man to go with the understanding that Mr. Currin be his

## WOMAN OF MYSTERY SHIELDS HIM

WILL TESTIFY IN  
THE DEFENSE  
OF LAWYER  
MITCHELL

The first intimation of the defense to be made by attorneys for Attorney David Mitchell, now on trial for having misled Evelyn Walker, a girl under sixteen years of age, was brought out this morning when Bernice Brown, the girl with whom Evelyn Walker went to Mitchell's office, testified that as they went into the office a woman stepped out and that she came back again while Mitchell and the Walker girl were in a rear room.

In her testimony, Evelyn Walker said that she saw no woman in Mitchell's office at any time. She said that there was no woman. In the office where she went there, that she did not meet one in the passage way and that she saw no one on the 17th day of November from the time she left the street to go up to Mitchell's office until she came out again.

There is a flat contradiction between the statements of the two girls on this point and the woman is waiting to take the stand and swear that she saw the two girls and that it was impossible for the alleged act to have taken place.

The defense of Mitchell is going to be that there is no truth in the charge made against him and a number of witnesses are ready to swear that on the day in question they were with him at the time the girls say that he was devoting to them.

### GIRL ON STAND.

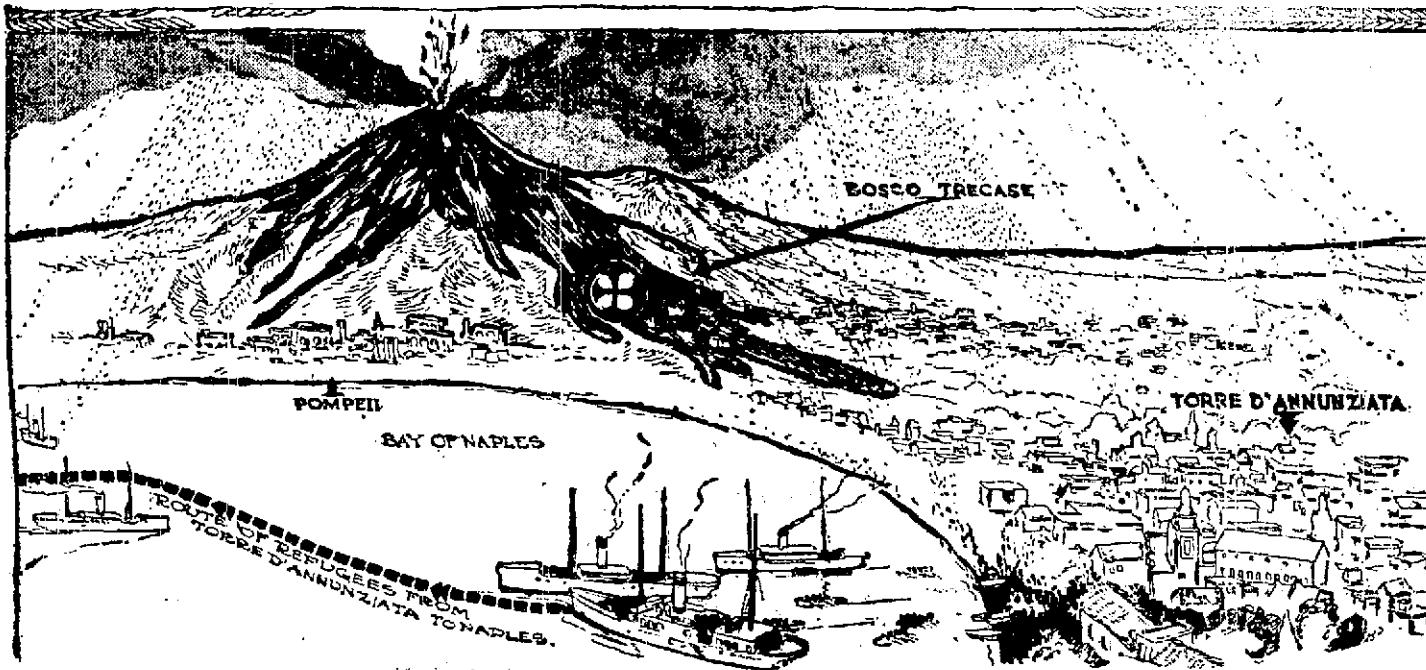

Evelyn Walker, the girl herself, took the stand this morning and related the story of her acquaintance with Mitchell. She said she was 16 years of age last June and when she stands by her mother, she is considerably taller, while her dresses are just below her knees and her bearing is that of a woman grown.

She has more than her share of good looks and with a head of blonde hair which is surmounted by a black cap plumed jauntily on the back of her

## SITUATION AT PRESENT TIME

NAPLES, April 11.—Torre Del Greco, Sarno and San Gennaro have been evacuated, and Portico, Chiricello, Poggio and Morlito are practically uninhabitable. The situation at Torre Annunziata has somewhat improved, as the current of lava has ceased to threaten it. At Torre del Greco the downfall of ashes and sand continues. The inhabitants are awaiting steamers to escape from the danger zone. San Gennaro is plunged in obscurity. The majority of the houses have fallen. Fugitives arriving in Naples confirm the previous reports to the effect that houses at Ottaviano continue to fall, and the villages in the neighborhood are in ruins. About San Giuseppe the ashes and sand are over four feet deep. Troops are encamped in the public squares here in readiness to move quickly to the assistance of endangered places, and patrols with military doctors are sending assistance to fugitives.

## PRISONERS IN NAPLES JAILS IN A MUTINY

NAPLES, April 11, 9:15 a. m.—The morning opened with the atmosphere oppressive and yellow with ashes from Mount Vesuvius, causing a feeling of apprehension regarding what the future may hold in store for this city and its vicinity.

There is a flat contradiction between the statements of the two girls on this point and the woman is waiting to take the stand and swear that she saw the two girls and that it was impossible for the alleged act to have taken place.

The defense of Mitchell is going to be that there is no truth in the charge made against him and a number of witnesses are ready to swear that on the day in question they were with him at the time the girls say that he was devoting to them.

All railroad service out of the city is interrupted. The engineers have refused to take out trains because of the darkness caused by the heavy fall of ash.

The seismic instruments show quiet records than yesterday. I shall remain here as long as possible.

If my words could influence the population they would be words of encouragement and sympathy, for I am most confident that Vesuvius will soon return to its normal conditions."

### PITIABLE STATE.

ROME, April 11.—Premier Sonnino left Rome for Naples today to supervise the government measures for the relief of the sufferers from the volcanic outbreak.

The Vita today published a dispatch from Castellammare, timed 3:30 this morning, saying that during the night trains arrived there with thousands of fugitives from Torre del Greco.

These persons were in a pitiable state, covered with ashes and badly parched.

They said that Torre del Greco was visited by a terrible storm accompanied by the fall of boiling water and stones the size of eggs.

The houses began falling and the population fled. The municipality of Castellammare is succoring the fugitives.

As the dispatch was filed at Castellammare the volcanic tempest had recommenced at Torre Annunziata.

## WHAT DO YOU THINK OF THESE?

### Great Drink Bill in Germany.

WASHINGTON, April 11.—Germany's enormous drink bill is explained in letters to the bureau of manufactures from American Consuls Brittan and Guenther.

Each inhabitant consumes a yearly average of six and one-half quarts of wine, 129½ quarts of beer, and nine quarts of brandy.

For a population of 60,000,000 people the liquor expenditure is \$672,588,000. The average for male citizens over fifteen years would be \$37.36.

By contrast, German expenditures for schools were \$39,722,000; for working people's insurance \$104,244,000, and for the army and navy \$203,847,000.

### Curious Domestic Complications.

### Red Bewhiskered Ghost Walks.

BERKELEY, April 11.—Visitors from San Francisco wending their way from the moonlight concert at the Greek Theater were considerably startled by the appearance of a red bewhiskered individual attired in a nightshirt suddenly jumping at the throng as they stood on the corner of University and Shattuck avenues waiting for their train. The man, who from all accounts, was walking in his sleep scooted for the Golden Gate lodging house. He was considerably surprised on awaking this morning to find a crowd of the inmates of the house standing about gazing at the oddity of his negligee costume.

Finally it was arranged that the wife should return to her first love, but that the baby, being born in wedlock with husband No. 2, should be cared for by the latter and bear his name.

The Duke is pronounced to be a worthy descendant of the late King Edward VII.

The military forces have earned the gratitude and admiration of the people by their devotion to duty. Not only are they credited with many acts of heroism, but they have displayed unfailing perseverance in searching for the living and the dead among tottering walls, assisting fugitives to reach places of safety, giving aid to wounded and in burying the dead, and all this while partly suffocated by the ash and other cinder-laden wind blowing from the volcano.

WORTHY EXAMPLE.

No danger has been too great for the troops to encounter, and no fatigue too severe for them. In this work the soldiers and others have been shown a worthy example by the Duke and Duchess of Aosta, who are praised on all sides.

The Duke is pronounced to be a worthy descendant of the late King Edward VII.

LEFT TO FATE.

From all quarters come reports of the accumulation of ashes, the flight of the terror-stricken inhabitants of towns and villages, the collapse of buildings, the insufficiency of the relief measures, hunger and discouragement.

It is no longer possible to reach the points which have suffered most severely. Even the soldiers detailed to guard the ruins at Ottaviano have been recalled, and the town has been left to its fate.

FLED IN PANIC.

The employees of a tobacco factory at Naples, thinking the roof was about to fall in this morning, fled in panic from the building and communicated their fears to so many people outside that the police were compelled to interfere and restore order. Many persons were injured during the panic.

Wherever it has been possible to do so the street car service has been resumed. The wheels in their friction with the tracks generate flames, showing the great amount of sulphur in the ashes.

FALL OF ASHES.

NAPLES, April 11.—The eruptions from Mount Vesuvius increased during the night and a coating of ashes and cinders to a depth of four inches covered the ground and the roofs of buildings today.

The situation of myself and the carabinieri in the observatory was very grave throughout the night. Up to 8 o'clock this morning the observatory was enveloped in dense showers of

# INDIANA REPUBLICANS ARE IN CONVENTION

Leaders of the Party Make Speeches and Praise the Record of President Roosevelt.

INDIANAPOLIS, April 11.—The Republican State convention assembled today in Indianapolis Hall to nominate State offices, with the exception of candidates for Governor, Lieutenant Governor and Reporter of the Supreme Court.

Senators Beveridge and Hemenway and Governor Hanly occupied seats on the stage beside James P. Goodrich, chairman of the State committee, who called the convention to order and introduced Representative Abraham L. Brick as the temporary chairman.

#### BRICK'S SPEECH.

"Stripped to the naked simplicity the battle cry of the Democracy in every campaign since the advent of the Republican party into power, has been 'we want to get in' we are against everything that would make you want a change.' And no doubt that will be the soul, no matter what the words may say, of the legend enshrouded on their political banner of this campaign."

"But they talk about a change from Republicanism to Democracy, why? It's not true that in the past or present that would make you want a change?"

"For thirty years and more they have covered their banners with political heroes—flat money, free trade and free silver. For thirty years and more they have done need in unmeasured inacticity the doctrine of protection as unconstitutional and a robbery of the many to enrich the few. And still they reiterate you ought to have a change. If there anything that makes you think you ought to have a change now?" Is there anybody in all this broad land today, Democrat or Republican, who could honestly tell you he would subscribe a single line of that unutterable record given in the name of the people of our country, particularly of unjust discrimination, and to secure expanded and steady rates to all shippers?

"What the Republican party has done, what it is doing, and what it proposes to do, is an ample guarantee of what it will do in the future."

#### SENATOR BEVERIDGE.

Senators Beveridge and Hemenway made short addresses. Senator Beveridge said in part:

"The Republican party has won all its past victories as the champion of progressive liberty. It must win its future victories as the champion of progressive liberty. It must always be the here-and-now party, the up-to-the-party, the party of conservative advance. A new era has opened upon the world. For half a century we have been answering the great questions which the welfare of individual poverty and a national deficit, four years of a damaged national credit and a damaged currency; four years of cumulative mortgages and despising foreclosures; four dismal years of countless disasters, hunger and horror—of children crying for bread and honest labor a tramp on the deserted highways of trade."

"We believe in justice, either to ourselves or to our neighbors, through a polite economy; all our prosperity is netwon to a polite economy; all our prosperity is netwon to a polite economy. It may be that the doctrine of free trade is a God-given theory of spotless origin. But we have tried both. We have tried them more than once. And I am rather inclined to the opinion that a full stomach and a well clothed body is a kind of reality I much prefer to a God-given theory that makes me hungry and poor. We have tried both, and this country never was prosperous under free trade. It has always been prosperous under protection."

"It helps us to stand up in bearing down. I don't want to win upon the nose of my country. I don't want to live in a political graveyard where the tombstones marks the grave of a dead dove. I don't want to die among the ruins of a dismantled industry. Just

# ARMY OFFICER IS DEFENDED IN SOUTH PLANTS BUILDING BOOMS IN OAKLAND

## SPEECH IN WASHINGTON UP HOLDS GEN. SMITH'S ACTIONS.

WASHINGTON, April 11.—When Speaker Cannon called the House to order today, a Senate bill ratifying an agreement with the Lower Brule band of the Sioux tribe of Indians in South Dakota was passed.

The postoffice appropriation bill was taken up.

The military record of General Jacob H. Smith was the subject of a speech by Mr. Bannon of Ohio, who defended the actions of General Smith in the Philippines, stating that General Woods' achievements were a complete vindication of the case of General Smith.

Mr. Hayes of California spoke in favor of an increased salary for postal clerks.

Mr. Griggs of North Dakota favored increased pay for letter carriers.

The watch trust had further hearings, though a speech by Terrell of Massachusetts, who is opposing the ad-

dress of Mr. Rainey of Illinois, read a letter from the president of the Waltham Watch Company in which it was empha-

tically stated that there was no watch trust. He admitted that the Waltham Company, in order to compete with the Swiss watchmakers, to compete with cheap labor of Europe, and to establish itself, was compelled to sell abroad cheaper than at home.

Mr. Hill, the minority leader, asked why there was no surplus abroad at less

price than at home.

"Here at home with a sheltered market," said Mr. Williams, "sheltered by the tariff for the planting, growth and consummation of combinations between manufacturers—I will not use the word 'trust' because it is a red flag in the eyes of many people—the moment we undertook to sell the surplus abroad at less

price, he would break the market price

and upon by the various factories, perhaps, the combination. The moment he did that, the hope which has been held out by the founders of pro-

tection, that it would not ultimately in-

crease the price of living would be shown

to be illusory, because each manufacturer

would enter into competition with the other members of the trust. Then

there would be real competition and prices would be reduced."

MEASURES. Now and then even the coun-

sel of violence is heard. This group of

extremists is already appropriating the

name of the Democratic party. Against

them and their doctrines the Republican

party stands as defender of and

for the principles of the party.

PROTECTION. The platform, as agreed upon by lead-

ers of the party and by the resolutions

committee, dwelt at length upon State

issues, endorsed President Roosevelt's ad-

ministration, Vice-President Fairbanks

and his other friends, the Indiana Sen-

ators and Representatives, and includes

the following planks:

"We favor the national regulation of

railroad rates to such manner as to insure

equitable rates to all. Such regulation

must be effected so as to operate justly

upon the shippers, the common carriers

and the body of the people.

PROTECTION. We adhere to the time-honored Re-

publican doctrine of protection. The Re-

publican party is the champion of pro-

gressive liberty. It must win its future

victories as the champion of progressive

liberty. It must always be the here-and-

now party, the up-to-the-party, the

party of conservative advance. A new

era has opened upon the world. For

half a century we have been answering

the great questions which the welfare

of individual poverty and a national deficit,

four years of a damaged national credit

and a damaged currency; four years of

cumulative mortgages and despising

foreclosures; four dismal years of count-

less disasters, hunger and horror—of

children crying for bread and honest

labor a tramp on the deserted highways

of trade."

IN APPROVAL. In addition, other plat-

forms are the enemy of wealth. It believes in

the right of property, but it is also the

friend of the people. It believes that

the just rights of capital and the real

welfare of the people are one and the

same. It believes that all honest inter-

ests of the few are wrapped up in the

prosperity of the many, and so the Re-

publican party stands as defender of

all honest capital on the one hand, and

the protector of all peaceful labor on the

other hand, and therefore the Republican

party is the enemy of those modern Cap-

italists who set each others' threats

at labor and the man who employs him.

A class is swiftly forming who pro-

pose to solve the great social, industrial

problems of the times by hasty, radical

The second will be at the junction of Mill creek with the river; the third at the junction of the middle and south forks; and the fourth at the junction of Boulder creek with the south fork. The latter point is the final point on the Elkhorn survey for the State highway.

KANSAS CITY, April 11.—The Southwestern Interstate Coal Operators Association, comprising Missouri, Kansas, Oklahoma, Indian Territory, and Texas, met today. The question of appealing to President Roosevelt to make an effort to bring about a settlement probably will be taken up.

# GRAND JURY IS PROBING TREASURER'S SHORTAGE

**David M'Donald of Livermore Has an Interesting Story for the County Censors.**

"You cannot get a man in Livermore who will say that he believes Arthur Felder, late county treasurer, took a dollar or county money," said David McDonald, one of the hard-working, thrifty farmers of the Livermore valley, today to a TRIBUNE reporter, who had learned that Mr. McDonald had just been excused from attendance upon the Grand Jury which had summoned him to tell about a conversation which had taken place between ex-Supervisor William H. Church, the late county treasurer, Arthur Felder, and Mr. McDonald himself and Deputy Treasurer Husband on Sunday, February 18 last, the day before Mr. Felder went to Colfax, where he died three weeks later.

#### LAST CONFERENCE.

"I recollect absolutely that I told you what I told the Grand Jury regarding the Felder case or whether I told them anything at all on the subject. But I have no hesitancy in telling you all I know about the case and what I believe as an individual."

#### THE HANDWRITING.

"It has been said that the I. O. U.'s which were found in the handwriting of Mr. Felder. They could just as easily have been in the handwriting of another who could write Felder's name as well as he can write his own."

The reporter asked what had taken place at the Felder home the Sunday before the late treasurer went to Colfax to regain his health, when McDonald, W. H. Church and Husband were present and replied:

"On that Sunday, it was the 18th of February, I think, I went to the residence of Arthur Felder in this city. We talked for quite a while. Ex-Supervisor Church, Deputy Treasurer Husband, Mr. Felder and myself were present. We were all sitting in the parlor.

"Finally it came around that Husband said: 'Lem Jones has been to see me and borrowed \$10 from me. I wonder if I ever got it back.'

"Now I know Lem Jones. He lives near Livermore. That's twenty miles southeast of Livermore. Sometimes he gets short when he comes here, and there are others who get short as well."

# NAPLES IS NOW COVERED WITH ASHES

**Archbishop and Mayor Visit the Injured in the Hospitals.**

**NAPLES.** April 11, 2:10 p.m.—The weather suddenly changed this afternoon, the wind blew strongly toward Naples, and ashes from Mount Vesuvius began falling faster over the city, which consequently resumed its gray color. The high wind also made breathing difficult.

The disaster at the market this morning was a great lesson to the whole city, causing the inhabitants to scramble upon the roofs of their houses and hastily remove the accumulation of ashes resulting from the volcanic outbreak. This roof clearing made walking and driving in the streets dangerous and disagreeable.

Cardinal Prisco, archbishop of Naples, and the mayor of this city, during the afternoon, visited the injured persons in the hospitals.

# WANTS WARRANT FOR OFFICER

## TEN JURORS FOR MITCHELL CASE

**BERKELEY.** April 11.—A new phase was put on the arrest of Mrs. Griffiths by Officer Christian Borcher yesterday by the woman's going down to Oakland this morning and swearing out a warrant for the arrest of the officer on the charge of drunkenness and disturbing the peace.

Mrs. Griffiths says that she was peacefully delivering milk at the house of Charles Peterson when the officer commenced to use vile language at her young son, who was accompanying her. As she took exception to his remarks, he called her a "damned old biddy."

His partner, Mr. Peterson, under arrest at the same time, Mrs. Griffiths claims that the man was intoxicated and that he had no right to molest her as she was engaged in a lawful and peaceful occupation. Believing that she could not get justice in Berkeley, she took her case to Oakland.

# SMUGGLED GOODS SEIZED

## FOUL PLAY FEARED

**SAN FRANCISCO.** April 11.—Smuggled goods of considerable value which were brought to this city on the battleship Oregon were seized by the United States government inspectors today at a local freight shed. Among the goods were pieces of valuable silk, many curios and expensive china sets, along with high-priced specimens of ivory.

The custom house officials are pursuing their investigation and expect to make other seizures. They have sent telegrams to many places asking that suspicious packages be intercepted and held until an investigation of their contents can be made.

# SLASHED HIS THROAT

**William Reaney Tries to End His Life at Home.**

Dependent on account of ill health, William Reaney, 75 years old, attempted to commit suicide last night by cutting his throat at his home, 1219 Peralta street.

He was discovered in the bathroom by the family. He had retired to rest but could not sleep, having been troubled with insomnia for a long time following a period of sickness. He finally arose and, securing a razor, proceeded to slash his throat. He was found bleeding profusely by one of the members of the family, who had been attracted by the strange sounds caused by his moving around.

REPEATED OPINION AT COLFAX.—The next day, Monday, February 19, Felder went to Colfax to regain his health.

"I went to see him on the following Sunday, that was February 25. We walked around and remained together for some time. We talked about many things and among them was the borrow which Jones had made. Felder said that Husband need have no anxiety on the subject, that Jones would pay him back the \$10 which Jones had borrowed. I said that that was the case. That was all that was said about it."

"I am satisfied that Husband never saw Felder after that. Felder was never at his office after he left his home February 19 for Colfax and I am almost certain Husband did not visit him at the health resort.

"Now, during the greater part of the week, or the whole week before Felder, Husband, Church and I had the talk referred to, Husband was away from the county treasurer's office because of bereavement in his family. Felder told him to stay away during that time.

#### HUSBAND'S STORY.

"Now it has been published in the papers that Husband has said that Felder paid him the \$10 which Jones had borrowed and put the tag in the drawer. Now, how could Felder have done that after the 18th of February, when Husband admitted lending the money to Jones when he was at Colfax?

"More than that, Jones' tag bears the date of February 7, 1896. That was during a week which Felder spent in the hills. At the end of the week, or February 11, Felder came down and stopped at my house all night and started for Oakland on the 12th."

BERKELEY. April 11.—The Filipino students at the University will go in a body next Friday to San Francisco to join in the reception of James Smith of the Philippines. The commercial parties of San Francisco and the city and county officials will meet Governor Smith at the ferry building and a program and exercises will be conducted. The speech of welcome by the Filipino students is to be delivered by Jayne Almeta, who was recently wed to a Berkeley girl, Miss Lillian Newell. Almeta is one of the editors of the Filipino magazine at the University. Her father is a rich sugar planter in Manila.

Unusual interest will be attached to this speech of welcome from the young Filipino student, because of the fact that Almeta once saved the life of Governor Smith, who was then General at the head of a division of the United States Army in the Islands. Almeta was serving as a captain of the constabulary, which is a government police in the Islands.

Almeta discovered a trap that had been formed for the assassination of General Smith, and by his promptness in communicating the news to the General, spoiled the plans and saved the General's life.

"RUNAWAY WIFE" AT YE LIBERTY

McKee Rankin's popular drama, "The Runaway Wife," pleased a large audience at Ye Liberty Playhouse last night. Franklin Underwood and Amelia Gardner appeared in the leading roles and received a warm reception.

Mr. Underwood gave an excellent portrayal of Arthur Blasberg, the American artist. He can always be depended upon to bring out the very best there is in a part. As Lady Alice, Amelia Gardner was seen to advantage, as she gave one of her best impersonations.

John Ravoli handled the role of Sir Leontine Travers cleverly. This is a difficult role to play. Robert Wayne again joined Blasberg's players, and was cast as Hon. Talbot Vane, the villain. His interpretation was perfect.

Elsie Esmond could not have been improved upon as Lillian Hayes. Harry West, James Gleason and Margaret Mackay all did clever work. Frank McVicker had an important part as Dr. Prescott and played it well. Other members who did good work were Miner Crotts Gleason, L. R. Stockwell, Baby Martini and Alpha Gertrude Clarke.

"The Runaway Wife" will be the attraction for the entire week, with the usual matinees Saturday and Sunday.

ALAMEDA PIONEER GOES TO THE BEYOND.

ALAMEDA, April 10.—J. H. De Nisi, a pioneer resident of Alameda, died last night at his home at 2514 Santa Clara avenue. In the afternoon he suffered a stroke of apoplexy. Dr. L. W. Stidham was called but too late to help the men.

Mr. De Nisi served in the Civil War and was a member of a regiment from Ohio. He has been in Alameda for over thirty years. The deceased leaves a widow but no children.

The funeral will take place tomorrow at 1 p.m. from his late home. The interment will be in Mountain View Cemetery.

The jurors accepted so far are: W. J. Stuve, Colby Collins, F. M. Wilkins, E. B. Briggman, G. H. Lee, M. J. Garcia, John S. Jones, John A. Morrison, R. Scott and V. Clappert. It is expected that the other two necessary to complete the twelve required will be secured with little trouble this afternoon and that the taking of evidence will begin without delay.

Attorney A. L. Frick was not present and the questioning of the jurors was left to Attorneys Hugh Aldrich, J. E. McElrath and William Donovan.

# TWO MEN ARE KILLED BY TRAIN

**One Was on Way From Scotland to San Francisco.**

RICHMOND, Cal., April 11.—Fred Milne, 20 years old, a young Scotchman, and his traveling companion, whose name is still unknown, leaped or fell from the Limited train No. 7, shortly after 2 o'clock this morning, near Richmond, across the street.

They struck a picket fence and were thrown down on the track. The train passed over their bodies, which were mangled beyond recognition. Milne was identified by a letter found in his pocket. His brother and sister-in-law live in San Francisco.

Another pocket contained a Bible given to him by his mother on the evening of his departure from Scotland, his brother having sent money to pay for his passage.

They announced his coming from Los Angeles and his relatives waited at the Ferry landing across the bay until 4 o'clock this morning for him to arrive.

## A WOMAN'S ORDEAL DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians require, in order to intelligently treat the disease, and this is the reason why so many physicians fail to cure female diseases.

This is one of the reasons why thousands upon thousands of women are converging on Lynn, the birthplace and home of Mrs. T. E. Willadsen, at Lynn, Mass., where there sounds every detail of female ills, and from her great knowledge she obtained from years of medical practice, female ills, Mrs. Willadsen can advise sick women more wisely than the local physician.

Miss Willadsen helped Mrs. T. E. Willadsen in Lynn, Mass.,

and now, if you have saved my money, I will give you my gratitude and my thanks for your help. You will find me here for over two years, and I have no lack of money in medicines to help me, and failed to do anything good. I have been a good doctor, but failing in my efforts, I turned to you for your help. You have given me full of information, and I am grateful to this good physician, Dr. Willadsen.

Now, I am pleased to establish the fact that we are in the world equals, Dr. T. E. Willadsen, Vegetable Companied for restoring women's health.

## MEET AND MARRY IN FEW HOURS

### COUPLE BEGIN COURTSHIP ON BROADWAY AND WED SHORTLY AFTER.

A quick courtship, begun on Broadway at 1 o'clock yesterday afternoon, terminated at 9:30 o'clock last evening at the office of the County Clerk in marriage. The couple that made this speedy matrimonial record were Henry William Holloway, a brazier, aged 27 years, residing in South San Francisco, and Margaret Ferguson, a nineteen-year-old waitress who lived at 1063 Broadway until she changed her name to Holloway.

The couple met on Broadway and struck up an acquaintance, which was followed by an invitation to dinner at a local restaurant. The invitation was accepted by Miss Ferguson, who took her to, give the affair countenance, her friend, Mrs. Bird. While at the table the waitress said to her friend: "This man Holloway looks good to me." "Why don't you marry him then?" said Mrs. Bird. "I am satisfied if he is, was the prompt reply of Miss Ferguson. Then Holloway expressed himself briefly and to the point by saying, "It's a go."

Bird suggested an immediate adjournment to the County Clerk's office for the necessary license and herself telephoned to Deputy County Clerk Wuthe, asking him to come down and do the cupid part of the business. He responded and issued the necessary document.

QUINN REFUSES.

Then the couple appealed to Justice of the Peace Quinn to perform the ceremony, but his honor balked and would have nothing to do with it, saying he refused to be a party to "dare" wedding. But love has always laughed at difficulties and generally found a way to overcome them. The history of this instance, and the anxious-to-wed couple found Ray Van De Mark of the County Assessor's office and told him their troubles and asked his assistance, which was promptly granted. The two were made one in the office in which they pursued their marriage license.

The license was paid for by nickels.

Then the groom tendered the minister \$2.50 in compensation for the pains he performed in the ceremony. The priest refused the tender, saying his regular fee was \$3, and he would not accept less.

The groom went down into his jeans and dug up the extra four bits and grudgingly handed it over. Then the bride and groom left, saying they were going to San Jose last night in an automobile and thence to Monterey today to spend their honeymoon. The ceremony was witnessed by Mrs. Bird, Albert Ahearn of 1565 Linden street and Watchman E. Maloof and Dan Denahy of the County Clerk's office.

The recent experience in the money situation and its effect on the immediate future justify me in saying that people seeking investments should now measure the value of bonds and stocks before the rate of interest on bonds will pay more than first-class bonds should not be bought to return less than 4 per cent interest and a similar grade of stocks 4½ per cent dividends. Buyers of stocks are governed by this rule, and are not likely to lose money on their operations, otherwise they run the risk of doing so. One of the reasons for the higher rate of interest prevailing is the active use of money throughout the country, a large part of which is tied up indefinitely in enterprises which are not apparently kept pace with the increase in the country's development. Therefore, as this condition of affairs continues money tends to command a higher rate of interest.

HENRY CLEWS.

## An Attorney's Limit.

The question is often asked by laymen how far an attorney may properly go in the defense of one known by him to be guilty. The answer would seem simple enough, and is outlined by a contributor to Atlantic. It is applicable to Riverside," says the Riverside Press, "as well as to other communities. In the first place, it is the right of a defendant to have his guilt proved, and fully proved by competent evidence and nothing else, and it is his counsel's duty to force the prosecution to prove its case, and no less his duty to prevent, if he can, the introduction of any improper proof; and this whether his client has privately admitted his guilt or not. When the prosecution re-tires, if the defendant has throughout protested his innocence, it is his right to take the stand and tell his story, however little belief in it may be placed by his counsel. But if a defendant has admitted his guilt to his counsel, the latter can no more be defended for allowing him to take the stand and perjure himself than he could be for aiding him in the concoction of a defense, or for calling other perjured testimony to his aid.

"The duty of the prosecuting officer is even simpler. It is to present the truth and the truth only to the jury, whether the truth tends to convict the guilty or to acquit the innocent. If he be in possession of any evidence believed by him to be reliable, which is favorable to the defendant but not in the defendant's power to produce, certainly he can no more properly suppress it than he can put in evidence believed by him to be false. His duty as a public officer requires from him no less the protection of the innocent than the punishment of the guilty."

How about attorneys who offer the testimony of witnesses whom they know to a moral certainty to be perjurers? There is much said about a lawyer's duty to his client and but little about his duty to society, to the State, to the cause of justice or the majesty of outraged law. Loyalty to a client is set up as a justification for every sort of legal trickery and subterfuge nor brutally assaulting under court protection witnesses who are compelled to testify on behalf of the State, for scandalous attacks on the character of innocent persons who have suffered from the criminal instincts of scoundrels. What are we to say of the practice of abusing men and women like pickpockets, simply because they have been forced into court by the power of the State to tell the truth? The license taken (and allowed) by attorneys for persons charged with crime drives many timid people to submit to unlawful outrage rather than complain to the so-called courts of justice. Others hide their knowledge of essential facts rather than undergo a pitiless and unfair cross-examination at the hands of an attorney whose idea of loyalty to his client is to tear to pieces the reputation of every one who testifies for the prosecution. The fierce invective, the storm of accusation, the variety of insinuation and innuendo hurled at witnesses who appear against criminals is a frightful commentary, not only on the administration of justice, but also upon the ethics of the legal profession. When lawyers strive by every artifice of the human mind, every perversion of the machinery of the law, and by the employment of testimony they know to be tainted and corrupt to acquit men they know to be guilty merely to earn a fee or to build up a reputation which can be turned to future financial account, it seems strange to hear them called officers of the court, friends of justice.

Are they friends of justice? Are they not rather the friends of criminals, the abettors of crime, and enemies of justice? What are their moral standards, their distinctions between justice and injustice, their ideas of decency and fair play, their respect for honor, virtue and truth? Is it the duty of a lawyer, taking the broadest view of it, to strive by every means possible, incidentally trampling on innocence and truth and assassinating character, to make the baser appear the better part, and pile wrong upon wrong that villains may go unwhipt of justice?

Apparently one of the most prosperous seasons California has ever known is opening. Plentiful rains have drenched the State from one end to the other, filled the soil with moisture and insured bountiful crops. The outlook for fruit and cereals is equally promising. The heavy snowfall in the mountains insures an abundance of water for mining and irrigation, also for power purposes. And while the season is propitious in the extreme, the universal activity in all lines of industry indicates an unprecedented development. Mining promises to be more active than for many years, and manufactoryes are being enlarged and diversified to an extent hitherto unknown. There is to be heavy railroad building. Water front improvements of vast extent and great cost are to be inaugurated in San Francisco. Extensive copper reduction works are to be erected on the bay, while building in every town in the State is being conducted on an unprecedented scale. There is no sign of slackening in any field of endeavor, consequently this spring finds Californians in an unusually gladsome mood.

Maxim Gorky, the Zola of Russian literature, describes M. Witte as a weak-willed, double-minded man, with a hunchback soul." This is certainly graphic enough. One can understand a man being weak-willed and double-minded, but a hunchback soul is rather puzzling. Still, we fancy most people will understand what the Russian novelist means.

Willie Jennings Bryan bears witness that Aguinaldo is a wise and patriotic man. Doubtless Aguinaldo will with equal cheerfulness give Mr. Bryan a certificate of character. Surely the unappreciated should stand together.

The Supreme Court has decided that the act of the last Legislature requiring butter to be stamped with its true weight is unconstitutional. At first glance this would appear to be absurd and against honest dealing. Yet, why should a dairyman be compelled to stamp its weight on each package of butter he sends to market? It is all right to compete a man when he does stamp the weight on his goods to stamp it with the correct weight, but the law reaches pretty far when it assumes to say that a dairyman cannot send his butter to market unless he puts its weight on each separate package. It might as well say the length of each stick should be stamped on a load of cord wood, or that each egg should be marked with its true age.

The Stockton Record has issued a handsome birthday number devoted to a review of the products, resources and industries of San Joaquin county. The Record seems to have firmly established itself in a field formerly monopolized by the Independent and the Mail.

"That whisky," said the host, "is over fifty years old."

## WHERE HE SHINES.

He has always got plenty to say,

Upon that it is safe to rely;

He will talk on all subjects all day,

Though on brains he's decidedly shy.

But that won't disconcert him a jot;

He is welcome where'er he may go;

He's a social success, for he's got

Such a fine conversational flow.

He will babble away about art,

Though he doesn't know putty from paint,

And his views he will gladly impart

Of a book without any restraint.

He will rail at an intricate p'ot,

And the way to improve it he'll show;

He's a social success, for he's got

Such a fine conversational flow.

He is up on the market report,

With some small information ahead;

He is thoroughly posted on sport,

And can give you a tip—"on the dead."

He is simply a pinhead—a dot,

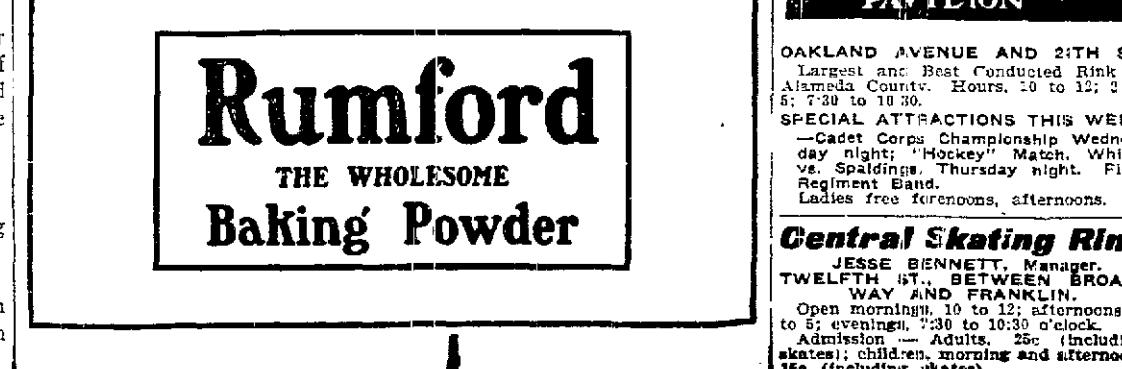

Who imagines he's in on the know,

But a social success, for he's got

Such a conversational flow.

## PETITION BOARD SPECIAL GOSPEL MEETINGS.

ORCHARD AVENUE RESIDENTS WANT COUNTY TO TAKE OVER SERVICE.

**ELMHURST.** April 11.—Citizens of Elmhurst began yesterday the circulation of a petition to the Board of Supervisors, setting forth that whereas citizens of Orchard avenue began in August, 1904, to maintain three electric lights on that avenue, and the time for which contract of service was made with the electric light company expires August 1, 1906, they now pray the Board of Supervisors to assume the maintenance of the lights at that time and to include an estimate for money for that purpose in their next estimate for county expenses.

**MORE IMPROVEMENTS.**

Postmaster Storer is advertising that he intends to put several lamps upon the trees in the improved park in front of the post office, so that patrons can get their mail whenever they desire to irrespective of the postmaster's presence. The improvement is contingent upon the arrival of the trees, which have been vainly expected for several days.

**CHRISTIAN ENDEAVOUR.**

County President E. A. Hustell of the Christian Endeavor Society was present at the meeting and stated that the officers, including the president, had no permanent address. The subject of the regular meeting of the society, Miss Maude Gerrior presiding, was "Our Pledge and How to Keep It."

The society is preparing for another entertainment.

**BALL.** The first grand ball under the auspices of the Elmhurst corner band is to be held in Red Men's Hall Saturday evening, April 21.

## ARRANGE TO CELEBRATE JULY 4 AT CENTERVILLE

**CENTERVILLE.** April 11.—An enthusiastic meeting of the citizens and people of Washington township was held in Hansen's Hall, Centerville, Monday night, when was perfected a permanent organization on the celebration of the coming Fourth of July at Centerville, the election of F. T. Hayes president, W. R. Smith secretary and J. J. O'Keefe treasurer.

The prominent men of the township attended. The Centerville brass band volunteered its services for July 4. The resident stated the object of the meeting and his remarks were given with hearty applause. Deacon J. J. Wamsley, trustee of the Washington Post, of July celebration of last year, and Secretary F. Tierney assisted in starting this celebration.

The present subscriptions are flattering, with the promise of substantial increases. Washington township is alive and the celebration no doubt will be a pronounced success.

## SKIN DISEASES

No skin disease can exist without an underlying cause, and in nearly every instance that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids find lodgement in the blood in various ways, the most usual of which is from a lack of energy on the part of the different members whose duty it is to keep the system free from all waste matter.

Skin diseases are always worse in warm weather, and those who are sufferers from Eczema, Tetter, Acne, Psoriasis, Salt Rheum, etc., look forward to the return of Spring with a feeling of dread. During the cold winter months we shut ourselves in as much as possible, and take a great deal less exercise than is customary in warm weather; we also indulge our appetites by eating of the heavy, rich foods of the winter season, which do not digest as readily as the lighter foods of Summer.

This indoor life and lack of exercise cause all parts of the system to become inactive and listless, and as a result the channels of bodily waste do not properly carry off the refuse and waste matter, which is left from all food after the nutritive properties have been extracted. This refuse ferments and sours and is absorbed into the blood to weaken and render this vital fluid sour and acrid.

The skin is one of Nature's avenues for removing foreign matter from the system, being provided with millions of little pores and glands through which the unhealthy matter is excreted. As these fiery acids are forced out through these pores and glands they burn and blister the skin, producing Eczema, Tetter, Acne, Psoriasis, Salt Rheum or some other itching, burning skin eruption.

Eczema commences usually with a slight redness of the skin, followed by the formation of pustules, which discharge a clear, sticky fluid. This dries in crusts, and the itching is so intense that often great areas of raw flesh are exposed by the scratching indulged in, in an effort to get relief. In Tetter, the skin becomes hard and dry, often cracking open and bleeding, and as in Eczema the pain and itching are severe. Acne comes on the face and neck, usually, and while not so uncomfortable as other skin troubles, is unsightly and embarrassing. Salt Rheum is very much like Eczema, except that the head is its favorite point of attack; sometimes becoming so severe as to produce baldness. Psoriasis is a dry, scaly form of skin disease and causes acute suffering by its continual burning and itching. These, and all skin eruptions, rashes, etc., are due to the same cause, and the treatment that does any permanent good must be constitutional. Salves, powders, lotions, etc., cannot reach the blood; the most they can do is to temporarily relieve the itching and keep the places clean.

S. S. S. is the best treatment for all skin diseases; it goes down into the blood and acts with a cleansing, healing effect, and by neutralizing the acids and humors and removing them from the circulation, it cures the trouble permanently. S. S. S. does not leave the least particle of the humor for future outbreaks, but entirely rids the blood of the cause. It cleanses and cools the blood so that the skin, instead of being burned and blistered by the fiery fluids, is nourished by a supply of cooling, healthy blood.

S. S. S. tones up the system and regulates the different organs of expulsion so that they will carry off the waste and refuse of the body instead of leaving it to be absorbed by the blood. It is purely vegetable, and not only a pleasant, effective remedy, but is the one medicine that can be taken with absolute safety by young or old, and besides being the king of blood purifiers, is Nature's greatest tonic. Special book on Skin Diseases and any medical advice desired furnished without charge to all who write.

## MAN IS MISSING; NO CLEWS

DISAPPEARANCE OF CHARLES KISTLER IS PUZZLE TO HIS FRIENDS.

**FRUITVALE.** April 11.—The feature of next week in Fruitvale, at least in religious circles, will be the special gospel meetings to be conducted by Rev. Alfred W. Hare of the First Congregational Church of Santa Cruz, in the Suburban News.

On Tuesday evening, commencing Wednesday evening, and continuing for nine evenings, Rev. Mr. Hare for some years led various services in connection with various organizations, and is now engaged in a regular preaching.

"THREE TIMES AND OUT."

The re-birthdays of "The Snowstorm" and the farce of "A Box of Monkeys," by the Feltmen players, were presented in the Armory Hall on Fruitvale avenue, Sunday evening, for the third and last time. The players, however, did not play well enough to warrant a revival by the same players.

After Gilbert and Ilma Jones rendered some selections on stringed instruments, plain and violin, Linda Park station, the hall was well filled by the audience and the appreciation was intense.

**EVERYTHING IS MELROSE.**

The name of "Austin" at the Southern Pacific local traffic terminus on the San Leandro road or East Fourteenth street, has disappeared, and in its place appears "Melrose." The sign is identical with the original address.

The subject of the regular meeting of the society, Miss Maude Gerrior presiding, was "Our Pledge and How to Keep It."

The society is preparing for another entertainment.

**ONE FOR UNION.**

The basketball team of Union High School, Melrose, received as visitors and defeated the team from the Alameda High School on the former grounds Tuesday afternoon, and had a most delightful time.

The game resulted in a score of 6 to 2 in favor of the visitors. The stars of the home side were the six free throws for the Union team, made by Peter Carew and the Interference work of Gertrude Hughes and Bessie Bayless.

After the game, the team accompanied their coach, plain and violin, to the Melrose Linda Park station, where the electric line also bears a duplicate of the sign. So it's all "Melrose" now.

**PIRATES OF PENGUIN TO BE PRESENTED**

The amateur opera company which so successfully presented Gilbert and Sullivan's "Pinocchio" last year is now preparing the "Pirates of Penguin." The performance will be given on May 1 at the Liberty Playhouse for the benefit of the Little Workers of the West Oakland Home, that very deserving society of which Miss Etta Schrock is president.

The company includes many well known amateurs. The cast is as follows:

Elizabeth King, Rufus G. Smith; Samuel L. Henshaw, C. C. White; Frederic, a pirate appearance; Michael Graydon; Edward, a sergeant of police, Frank Fugone; Major General Stanley, Sanford Bennett; Mabel, General Stanley's youngest daughter, Mrs. Thomas Nunan; Kate, Edith and Isobel, General Stanley's daughters, Lotte Randall, Muriel Damon, Alva Opie; Ruth, Miss Southard.

The success of the performance is assured from the fact that Miss Jeanette Walker, who created the part of Mabel in the original production under Gilbert himself, is staging the production.

Professor Hilton of Fruitvale, who has great experience in productions of this kind, will direct the music. The business end is being looked after by Edwin C. White.

**PERKINS GIVES DINNER IN DEVLIN'S HONOR**

**WASHINGTON.** April 11.—Senator Perkins last night gave a dinner at the Metropolitan Club in honor of R. T. Devlin, District Attorney, San Francisco. The members of the California delegation in Congress were present.

**ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.**

I had a bad case of Eczema, it being especially severe on my right hand. I was hardly able to use my hand in my work. I tried a great many things in an effort to get relief but was unable to do so until I read of S. S. S. and determined to give it a trial. I used several bottles of this remedy and it cured the trouble entirely. S. S. S. put my blood in fine condition and left my entire skin soft and smooth, and though this was some time ago, there has been no return of the trouble. CHAS. J. WOLF, Jr.

**PROGRESS MADE IN 50 YEARS**

The Owl Drug Company Says One Of The Most Noted Examples Is In Medicine.

"While electricity has supplanted the old-fashioned tallow candle for lighting purposes, almost turning night into day; while it has opened up our great country by a network of electric railways, while all kinds of machinery have been invented to do the work of hosts of people, we have just as noted an example in the field of medicine," said Mr. Specht of the above firm.

"Fifty years ago every one knew

of the latent medicinal properties contained in cod liver oil; physicians everywhere prescribed it, but thousands could not take it on account of the oil and grease which enveloped the curative.

"Now all this is changed," said Mr. Specht.

## "VAN" ON ROBBERY; HOPKINS A WONDER

Regarding the Flood case, the Post and Telegraph says:

"It is generally agreed, so far as newspaper critics are concerned, that Tim Flood is entitled to a cold shoulder if he ever wants help. He has forfeited all claims to friendship by his actions. This is not entirely because his stand hurt the Portland prospects, but because it is a poor policy for a ball player."

"His demands were met with a single exception, viz., wanted \$300 advance money and refused to join the team unless he was paid personal expenses at Stockton rather than forwarded to him the outlays. And it would have been poor judgment to have entrusted him with \$300. Without a bit of excuse, he quit the team and quit it when his services were most needed. Flood should suffer."

**OLD LEAGUERS SCORE ONCE MORE**

The old Leaguers journey to Pleasanton last Sunday and defeated the Red team of that town by the one-sided score of 12 to 2. The game was a fitting in spite of the postponed score.

The old Leaguers played their usual good games, playing quarters ball and making four fast double plays which brought forth loud applause from the large crowd in the grandstand.

Jackson pitched a great game, holding the Pleasantons sputters down to three scattered hits and striking out fifteen.

Hetherington, the new man signed by the old Leaguers, proved that he would make good by making sensational catches and rapping out five strikes out of an injury time of bat.

The old Leaguers say they would like to meet all fast teams, the faster the better.

The old Leaguers defeated the Port Mason team Saturday, April 1, by a score of 8 to 1.

Mike Nevins, of Grass Valley, and James Siva are in Oakland and expect to be signed up with the Heeseman team. Nevins is one of the fastest shortstops among the batters. Siva is well known here as a half-player, having been closely identified with the game for ten or fifteen years.

## OAKS WIN THEIR FIRST GAME AFTER TEN INNINGS OF PLAY

### PIRATES TAKE DECIDING GAME

The last match of the Bay Counties Association Saturday Football League was played on the Pirates' grounds at East Oakland last Saturday, the contestants being the Hornets and Pirates.

As neither team had beaten before this season and both were anxious to secure the trophy, a hard game was looked for and a hard game it proved to be.

At the beginning it looked easy for the Hornets. A pair of backs, Billie Webster and Van Holmes, took some beating. The Pirates played with the wind at the back and soon made their presence felt, for in less than ten minutes they had the ball in the net and before half time got it through a second time, the Hornets seldom passing the center line.

A two goal lead looked none too promising for the Pirates, who were now playing against a strong defense, but their lead was maintained, a back and try for an opening. The Pirates were playing a fine passing game and gave the Hornets' defense no end of trouble, the strong wind alone preventing them from scoring.

Towards the finish the Hornets scored their only goal. The Pirates thus won by a score of 2 to 1, and finished the season with an unblemished record.

### MARINE RISKS FOR AUTO CARS

SEATTLE, Wash., April 10.—A special to the Post-Intelligence from Olympia says:

In answer to an inquiry from the insurance commissioners asking how automobiles ought to be classified for purposes of insurance, the assistant attorney-general has replied that they may be classed with marine risks.

"The automobile appears to be a nullus filius in our insurance laws. The idea of protecting these modern machines against accident, breakdown, explosion, fire, injury by the elements, theft, and animal attacks yet to be fully engaged the attention of the Legislature. No niche clearly appears in the insurance laws for such risks."

"While this modern machine is a thing of beauty, it is an inanimate object, and for that reason livestock, casualty or life insurance would not cover the risk. This leaves only marine insurance and, indeed, there are many points of similarity in the risks assumed between an automobile and a ship."

"Both are liable to collision, fire, breakdown, explosion, damage from the elements and running amuck, and insurance that meets the risks of a floating vessel apparently covers the risks of an automobile."

A stubborn fountain pen has interrupted many a man's flow of thought.

CIVIC MATTERS ARE DISCUSSED  
BY THE MERCHANTS' EXCHANGE

Consolidation Theme  
of Director A.  
Jonas.

Say Franklin Street  
Ought to Be  
Repaired.

At the meeting of the Merchants' Exchange last night the question of the consolidation of city and county government and the consolidation of Oakland, Alameda and Berkeley was brought up.

Director Gles said that the subject had been considered by the Chamber of Commerce, and that that body had decided to take an interest in the advancement of the idea.

Secretary Walker read a communication from the consolidation commission of the city and county of Los Angeles. That city, he said, had a scheme on foot similar to that which Oakland was espousing and had fourteen committees working on different features of the proposition. The letter which is self-explanatory, is as follows:

**ANNEXATION IN THE SOUTH.**

"Los Angeles, April 6.  
My Dear Sir: I have this hour to acknowledge your communication of March 26 also a copy of the laws introduced by you.

"At the next meeting of the commission I will call their attention to this and you will hear from us.

"Thanking you for your consideration, and saying to you that no doubt we will be able to co-operate, I am yours very truly,

"A. P. FLEMING, Secretary."

Director Jonas, who has taken a great deal of interest in the subject, said:

"We want to form a city and county government. We want it to be a government which will make Alameda and Berkeley see that it will be to their advantage to join it. We have lived here all our life. I don't think there is any man who has this subject or the interests of the city any more at heart. All my interests are here. I have always taken an interest in this city and county."

"Four years ago I had a spat with Brother Arper on this subject. He said, Jonas, 'If you want to carry this you've got to go into politics.' But I said, 'I'll show you what we'll do.' We went to work with zeal and faithfulness and without reward, except such as comes from doing something to benefit the city. We went to Sacramento to see if we could not get a bill passed by the Legislature which would enable us to form a city and county government. But you know the result."

**TOO MUCH GOVERNMENT.**

"Any man who is not in politics knows that we have too much government and that we can't do much. We went to Sacramento and we learned that we had to go into politics to succeed in our purpose. I am partially guilty of making this mistake."

**VULGAR ABUSE.**

"I am ashamed of myself when I take up a Berkeley or Alameda paper. They are charging us with everything under the sun. I am not a politician, although I may have sought office. Thank God, I don't need office. They call us a gang of grafters. I can't stand it. They say we are nothing but politicians. Now, I am willing to admit that conditions have changed. They are doing unto us. They abused the office on the last administration because they favored annexation. Now, I don't believe that the e's are better men as officials anywhere than were abused in this way. There is no question about that."

**NEW LAW NEEDED.**

"New clubs are being formed for a city and county government, but if the entire cities of Oakland, Berkeley and Alameda were unanimous in having one government, there is now no law which would enable them to form that government."

"If you wanted to extend the limits of Oakland as a county to San Leandro creek, if you wanted to divide the country, there is no law which would enable you to do so."

**WANT TO BE LEFT ALONE.**

"We don't want to force Alameda or Berkeley to become a part of us. We want to be left alone. They may not want annexation. Perhaps even Oakland doesn't want it. But the thing is to have the law passed enabling the formation of a city and county government CITY AND COUNTY."

"What we want is to have one city and county government. What we want is to come together and see what we ought to do. In San Francisco first we tried to have a meeting, they wouldn't come, and then they thought we wanted to take them bodily into annexation. Any fat mink mind will tell to get such a law passed and will be willing to let Alameda and Berkeley alone. They call our officials grafters and yet you cannot find a better city or county government. It's the fault of the law that the cost is so great. The law allows it. There are only five supervisors, and those towns want to get supervisors for themselves. We get the worst of it."

"From a foolish standpoint, perhaps for us merchants on Broadway and Washington street, I don't think it would be a benefit to us to have consolidation, because, while we stand as we are now, we will, I suppose, get some of the trade of these people. At the same time, our plan should be to get a city and county government."

Further discussion on the subject was deferred. \*

**CHICAGO HAS A SPECIAL ATTORNEY**

**LETTERS FROM CONGRESSMEN.**

CHICAGO, April 11.—Walter L. Fisher, until recently president of the Municipal Voters' League, and for several years a member of the law firm of Matt, Fisher & Hayden, has been appointed special trial counsel to Mayor Dunn. The announcement of the appointment was made by Mayor yesterday. Mr. Fisher will receive a salary of \$10,000 a year and will devote virtually all of his time to the city's service. \*

**IS CHARGED WITH USING SOFT COAL**

NEW YORK, April 11.—Health Commissioner Darlington made the first move yesterday in his campaign against the violators of the smoke ordinances. Frank G. Burke, of the Manhattan Soap Company, was arraigned in court for using soft coal. He waived examination and was held in \$100 bail for trial.

Commissioner Darlington said last night that many more arrests would follow.

**MOTHER GRAY'S SWEET POWDERS FOR CHILDREN.**

A certain Mrs. For Fervoriness, Countess of Tropicales, Teaching Disorders, and Destroy Women To The Death, 20th Street, New York City. A. S. OLMSTED, L. Roy, N.Y.

Mr. Flint's letter on this subject was as follows:
